

CHIEF CLERK DIMMICK WILL BE ARRESTED FOR THEFT.

UNITED STATES DISTRICT ATTORNEY IS PREPARING A COMPLAINT CHARGING THE EX-CHIEF CLERK OF THE MINT WITH STEALING
THE MISSING \$30,000.

SAN FRANCISCO, Aug. 9.—Walter N. Dimmick, the former Chief Clerk of the United States branch Mint, is to be arrested as a result of the investigation into the theft of \$30,000 from that institution.

At the request of Secret Service Agent Hazen, United States District Attorney Woodworth is preparing a complaint against Dimmick, and he will be charged with the embezzlement of the \$30,000 and also with using Government funds for private uses.

Ever since July 4, when it was discovered that six sacks containing \$30,000 were missing from the Mint, Dimmick has been a prominent figure in the investigation.

He has been shadowed by the Secret Service men and his private life and affairs have received considerable attention. The officers believe they have sufficient evidence against him to warrant them in issuing an order for his arrest.

WINTERS TELLS STORY TO THE DETECTIVES.

SAYS HE HAS \$4,300 BURIED IN THE GROUND BUT HE WILL
NOT TELL THE LOCATION TO
THE POLICE.

SAN FRANCISCO, Aug. 9.—When seen by a representative of the Associated Press today President Ralston of the Selby Smelting Company said:

"We believe that we are on the trail of the robbers and that Winters, the suspect now in custody, was at the head of the gang."

"Detective Lees told me late yesterday afternoon that it is his opinion that Winters carried the scheme through single handed."

"The detectives are still working on the theory that they have the right man and are getting further evidence against Winters. What Winters did with the bullion if he is the right man is hard for me to say. He must have worked like a Trojan to carry off 12,000 pounds unassisted, and must have made many trips to the cache, but then we only have an indistinct trail to follow to the water's edge and many trips to the bay shore would have left a more pronounced trail."

"It may be that bullion is secreted on the main land somewhere. Further than this I know nothing."

REMARKABLE STORY IS
TOLD BY WINTERS.

SAN FRANCISCO, Aug. 9.—Winters told his story anew today. He made no attempt to evade anything, but rather answered the questions of the interviewer readily and with detail. He is a thin, lanky German, with close-set black eyes, dark hair and brown moustache. He is of a nervous temperament, and trembles violently when under interrogation.

"I cannot explain why I am charged with this great crime," he said, "unless it is because I have been tricked by

some one. In the seven years I worked at the Selby works I made some enemies because I refused to consort and drink with the other workmen. While I worked for the smelting Company I was kept at the furnaces located in the end of the building most distant from the vault. I had nothing to do with the keeping of the gold, and had no means of knowing anything about the alleged weakness of the safe."

"I have no living relatives. I came here from Los Angeles, where I had gone from Texas. I had \$2,700 then and since that time have increased my savings to \$4,300, all of which I have buried in a strong-box in the hills right now. I do not believe in banks."

"Where you ever in a bank failure?" "No. I had a few hundred dollars in the American Bank a few years ago, and the people tried to get me to put all of my money there, but I told them it was none of their business where I kept my savings, and so I buried them. The \$4,300 is in gold and bills of large denomination."

"Would you be willing to satisfy Captain Seymour that you are telling the truth by taking him to the spot and unearthing your hidden treasure?" "I would die first. That is nobody's business and I will never tell a living human being where the money is hidden."

"But supposing there is gold bullion there?" "There is not. I did not take that bullion."

"Then why not prove it by taking up the strong box?"

"No, sir. The police and lawyers will get it if I do. There is no use talking about it."

A long and determined argument here failed to move Winters from his position. He still relied at the banking institutions and announced with a smile that he would gladly die before he would uncover his \$4,300 in earnings."

"On Tuesday morning last," he continued, "I rode my bicycle to Crockett, and on the road a man whose name I cannot recall yelled at me, saying the smelting plant had been robbed. It is because I have been tricked by

SAN FRANCISCO, Aug. 9.—Peace may not be far away, although as yet there has been no conference between the labor leaders and the Employers' Association.

Conferences between the representatives of labor and the great grain dealers of the city have, however, and are taking place, and it may be that the grain men will be able to bring about a meeting between the discordant elements. A conference, say the labor leaders, would result in a speedy settlement of the difficulty.

The Marine Cooks and Stewards' Association has declared a walk-out in sympathy with the striking water front unions. The order became effective this morning and all the men in port are said to have obeyed it. Those now on coasting vessels will be called out whenever they reach port.

Politicians are becoming interested over the fact that the Union Labor party is to hold a convention early in September and nominate a full ticket, from Mayor down. Each labor union in the city will be entitled to representation in the convention. No candidate of any other party will be endorsed.

A statement of principles will be issued tomorrow evening at a meeting held for the purpose of calling the convention.

NATIVE POLICE MAKE RECORD IN PHILIPPINES.

General McArthur Shows That Good
Results Come From
Their Work.

WASHINGTON, Aug. 9.—The Insular Division of the War Department is in receipt of a report forwarded by General MacArthur from Manila, P. I., showing the condition and results achieved by the "native police" for the months of April and May, 1901. It shows the force to be in a high state of improvement and the plan at first regarded as an experiment is fast becoming an important factor in restoring good order and discipline in localities which for years before and since the war have been regarded as unsafe for both men and property. General MacArthur, Smith, H. Smith, Grant, Bates, Wade and Sumner speak highly of the efficiency and loyalty of the police, particularly reference being made to their capture of bands of insurgents. This native police is purely local in its character, and is supported by the towns and provinces, assisted by the insular government.

PACIFIC GROVE, Cal., Aug. 9.—The final departmental meetings of the conference of reformers conducted by the California W. C. T. U. occurred this morning and the closing sessions of the convention will be held this afternoon and evening.

During the morning delegates discussed the question of systematic giving as a means of promoting temperance work.

Social and political purity also came up for consideration, much time being occupied in discussing methods for promoting this branch of reform.

Great Battleship Will Come to San

WASHINGTON, Aug. 9.—Neither the State or Navy Department were able to throw any light upon the press dispatches from Willemstadt, stating that the Venezuelan government announced that another Colombian invasion occurred yesterday near Colon.

No further official reports have come regarding the situation on the Isthmus as the officials appear content to rest for the present with what has already been done in preparing to protect American interests. They do not regard the situation as serious, but desire to be ready if it should become serious. The battleship Wisconsin had not reported her departure to the Navy Department during the early part of the day, but it is expected that she will be on her way south very soon. As San Francisco is over 3,000 miles from Panama, the battleship probably will proceed down the coast, probably to San Diego, Cal., and thence await developments on the Isthmus.

LARGE FOUNDRY IN CHICAGO HAS SURRENDERED.

Great Victory and Men Return

CHICAGO, Aug. 9.—Iron molders state that the Ferguson Foundry Company has granted the strikers' demands. William Ferguson is one of the oldest members of the National Foundrymen's Association, and his surrender to the strikers is considered by them the greatest victory they have won. At the headquarters of the Ferguson Foundry Company the representatives would not talk of the surrender or give the terms of agreement.

"The men returned to work this morning," said one, "and the foundry is in full operation again." The Ferguson Foundry Company is the twenty-fifth firm to sign an agreement since the molders struck on July 15.

LONDON, Aug. 9.—A parliamentary paper has been issued containing the proclamation issued by Lord Kitchener August 7 in accordance with instructions from the imperial government, the governments of Cape Colony and Natal concerning. The proclamation says:

"All commandants, field cornets and leaders of armed bands, being burghers of the late republics and still engaged in resisting His Majesty's forces, whether in Orange Colony, the Transvaal or other portion of His Majesty's South African dominions and all members of the late governments of the Orange Free State and Transvaal shall unless they surrender before September 15 be permanently banished from South Africa."

"The cost of maintenance of the families of all burghers in the field who have not surrendered by September 15, shall be recoverable from such burghers and shall be a charge upon their property, removable and immovable in the two colonies."

The preliminary correspondence shows that the proclamation is based upon suggestions which the government of Natal forwarded to Colonial Secretary Chamberlain July 24, and that date of September 15 was recommended by Lord Milner.

THE REASONS OF THE GOVERNMENT for the proclamation of Lord Kitchener of August 7th are set forth in a preamble to the proclamation, as follows: "Whereas, the late Orange Free State and South African Republic have been annexed to His Majesty's dominions; and "Whereas, His Majesty's forces are

Masters Do Not Seem to Be Able to

the Work.

In response to an advertisement for painters who were willing to work eight hours a day for \$3, which was published yesterday, President Cahill of the Master Painters' Association said today that he had received three applications, but that he had not put any of the applicants to work. He said he would wait a little longer before making any further move.

Fully 100 painters have found work with employers who do not belong to the Master Painters' Association. A number of the craft have gone on a vacation, and of those who frequent strike headquarters many say they can get all the work they want at union rates of \$3.50 a day, but that they prefer to lay off and take a rest. They are all confident that the Master Painters' Association will come to their terms.

NO CHANGE IN GREAT STEEL STRIKE.

GOMPERS AND SHAFFER ARE
NOW PLANNING THE

As a Result of a Big Mass Meeting
the Mills are Said to
be Crippled.

PITTSBURGH, Pa., Aug. 9.—The steel strike situation underwent but little change overnight. The corporation made no attempt during the night to reopen the Painter mill and the strikers claim that they blocked the plan to start the plant by winning over the non-union men who had agreed to go to work.

THE MILL OFFICIALS deny that there has been any interference with their plans and say that in due time the mill will be started up. President Shaffer and his brother officials of the Amalgamated Association are still engaged in an effort to secure the co-operation of the American Federation of Labor. They say they are sure of obtaining it, and that their complete success is thereby assured.

NO INTIMATION OF PLANS. Neither President Shaffer nor President Gompers, nor any of the men engaged in conference with them, has given any intimation of their plans, but it is predicted that they will make the bold stroke of transferring bodily

TRYING TO STOP THE COAL FAMINE

Oakland Sends Fuel to San Francisco to Help Out Employers.

The Teamsters' Union has withdrawn its proscription of the transferring of baggage and furniture between this city and San Francisco, and as a consequence a number of the men have gone back to work. "Those, however, will not be allowed to handle freight between these cities."

Jack McCurdy, one of the striking teamsters, resumed his place as a driver for the People's Express Company this morning. McCurdy is the first man to desert the striking teamsters.

The People's Express put on its check wagon this morning and will resume its handling of baggage after an embargo of nearly two weeks.

Non-union stevedores are unloading the bark Highland Light at Howard's wharf.

The crew of the ship Australian is slowly reducing the coal cargo of that vessel at the Pacific Coast Company's wharf.

The striking hoisting engineers have not yet returned to their berths.

Captain Johnson of the steam schooner Noyo, after detention of nearly two weeks, abandoned all hope of getting his lumber cargo ashore through union longshoremen and steamed away from Berkeley's wharf this morning for Long wharf, where he expected to have the cargo handled by non-union laborers. When off Derratta street, the Noyo ran aground in the harbor and must await high tide to be floated.

An attempt to put off the coal famine in San Francisco is being made by loading scow schooners with coal in the harbor and towing them to San Francisco. Two such vessels crossed the bay this morning.

LABOR LEADER SPEAKS.

Scott Anderson, State organizer for the Socialist Labor party, lectured last night before a representative audience in Beckler's Hall. He spoke chiefly regarding the differences in labor conditions in England and America, and drew as his deductions from the facts presented that the American laborer, while better paid and housed than his brother across the water, had to work far harder, in proportion to the actual benefit received, than the English workman.

PROPERTY OWNERS BEFORE THE CITY EQUALIZERS.

OBJECTIONS AND EXPLANATIONS ARE MADE IN REGARD TO THE PROPOSED RAISE IN THE ASSESSMENT ROLL—TAXPAYERS ARE GIVEN A HEARING.

In accordance with the resolution of the City Board of Equalization citing the property owners having an interest in the realty bounded by Fourteenth, Seventh, Clay and Washington streets to appear before the Board and show cause why their assessments should not be raised, many property owners were in attendance and entered protests at the meeting last evening.

The following Councilmen were present: Bishop, Bon, Boyer, Courtney, Fitzgerald, Ruch, Dornin, Wallace, Wixson and President Schaffer.

The Board allowed the present assessment to stand in many cases, principally in the district bounded by Seventh, Tenth, Washington and Clay.

The property owners were unanimous in testifying that the property in that district was not business property, nor could it be called desirable residence property. In many cases the rent has dropped over one-third since 1890.

Owners claim that their investment brings them but one and one-half to two per cent on the capital invested. The property owners in the vicinity of Seventh street were unanimous in declaring that their property was depreciating in value owing to the business centering north of Seventh street. Where the income was shown to be barely sufficient to pay the insurance, water and tax bills, the Board permitted the assessment to remain as it is.

Harold L. Martin appeared before the Board and objected to any raise of the assessment on the property known as the Fraternal Hall, between Thirteenth and Fourteenth streets on Washington, on purely technical grounds. His contention was that the resolution sent out by the Council affected two lots only while the County Assessor in making his assessment included another lot, making a jump sum. In order to raise the assessment on the Washington street lots, Martin claimed it would be necessary to have them reassessed so that the separate values could be known.

In order to overcome Martin's technical objection, Councilman Courtney suggested a resolution be adopted giving Martin a correct notification, embracing the proposed raise on all separate lots owned by him.

A resolution was adopted to that effect, notifying Martin to appear Wednesday next and show cause why his assessment should not be raised.

Harry W. Blake, with property on west side of Washington street near Fourteenth street, said he would like to have the assessment stand.

Courtney—You don't consider that the property is worth more than the present assessment?

Blake—I do not.

Wixson—Don't you consider the value of your property equal to what a similar lot would be on Broadway?

Blake—Property on Broadway is rated much higher. The lot is now assessed for \$25,000 for the land and \$9,500 for the improvements.

Wixson—Would you mind stating what you paid for it?

Blake—That is immaterial. I may have paid too much or too little. In either case I would be ashamed to say so.

The matter was finally taken under advisement.

Mary Matthews did not appear.

George Uhl appeared to petition for no increase on the assessment of his property at the southeast corner of Fourteenth and Washington streets. Property assessed for \$36,000 and improvements \$4,000.

Uhl—The taxes on that property are \$1,300. That is much in excess of what is charged in San Francisco. We have felt no reason of complaining against the present assessment, but we would not like to have it increased. It is not as valuable as Broadway property.

Mr. Edward Newland appeared to say that the assessment on his property at the northeast corner of Seventh and Washington streets was sufficient.

He said he thought his property assessed at \$21,000 was all it was worth. His building was very old and he thought its full value had been already determined, as property had been depreciated below "tent" street. "We are perfectly satisfied with the present taxation," he said, "but it is as much as we can stand, when we consider the high rate which the insurance companies charge us."

Mr. Wixson—Mr. Newland has shown that he is fair in his statement.

ments, being under the iron-bound monopoly of the insurance companies, and therefore I move that the assessment remain as it is.

Seconded by Courtney and unanimously carried.

Mr. Courtney then moved that the present assessments on Mr. Newland's children's property be left as it is. Carried unanimously.

The following property owners had their hearing continued and taken under advisement.

H. W. Blake, 150 feet between Thirteenth and Fourteenth streets on Washington street, assessed \$34,500; George Uhl, southeast corner of Fourteenth and Washington, assessed \$43,500; Grove Investment Company, Physicians' building, assessed at \$91,000; John A. Beckwith, agent for Masonic Temple, assessed \$60,000; London Insurance Company, represented by W. J. Dutton, northwest corner of Ninth and Washington, assessed \$36,000; E. C. Palmer, California Hall, on Clay street, assessed \$64,150; Henry Kahn, two lots, north side of Ninth between Washington and Clay, assessed at \$6,350; John Dewing, southwest corner of Tenth and Washington, assessed \$30,000; Mrs. S. J. Fern, two lots on Clay between Thirteenth and Fourteenth, assessed \$10,800.

The following property owners had the present assessment on their property remain as it is: O. B. Smith, northwest corner of Eighth and Clay, assessed \$14,500; M. S. Rudolph, southeast corner of Tenth and Clay, assessed \$8,450; T. W. Corder, Washington street between Eighth and Ninth, assessed \$23,000; Will H. Schuler, Seventh street between Washington and Clay streets, assessed \$3,400; Henry Evers, Washington street between Eighth and Ninth streets, assessed \$4,500; E. S. Sparks, Eleventh street between Washington and Broadway, assessed \$13,300; Paul Eppinger, Tenth street between Washington and Broadway, assessed \$5,500; Edward Noolan, northeast corner Seventh and Washington streets, assessed \$2,000.

The following property owners did not respond to the Board's citation: Thos. Crellin, M. K. Blake, W. R. Davis, H. Levy, F. M. Shutz, H. Swaney, J. C. Westphal, Joseph Boardman, J. B. Halstead, J. T. Moran, Benjamin Ide Wheeler, Mary Matthews.

The request of T. W. Corder that \$500 worth of personal property assessed to him between Eighth and Ninth streets and Washington be reduced to \$1 was granted. The property consisted of furniture which has been removed to his home at Twelfth and Oak and there assessed.

Last Saturday our glove counters were thronged with the unprecedented rush for the Jay Aye Dollar Glove, and we had to turn away ladies without being served. This Saturday we will be better prepared and will try to serve all.

HOW DID IT HAPPEN?

First—Because the Jay Aye Dollar Glove does not stretch and keep a stretching until it has stretched all out of doors like most dollar gloves do.

Second—Because the Jay Aye Dollar Glove is not stiff like a board and does not bind the hand like home made gloves do.

Third—Because the Jay Aye Dollar Glove is not out too deep between the third and little finger, causing an awkward wrinkle, like most very best Dollar Gloves do.

The Jay Aye Dollar Glove holds its exact shape and size until it is all worn out.

The Jay Aye Dollar Glove is very soft and pliable and is the most comfortable and easy glove on the hand.

The Jay Aye Dollar Glove is the personification of perfection for one dollar.

In shapeliness, ease and fit, it stands alone at \$1.00 a pair.

That is our Jay Aye System and that is how it happened.

FREDERICK KAHN MAKES AN ATTACK ON W. J. DINGEE

DRY GOODS MERCHANT PAYS HIS COMPLIMENTS TO THE PRESIDENT OF THE CONTRA COSTA WATER COMPANY.

At the meeting of the city Board of Equalization last night, Fred Kahn, a member of the firm of Kahn Brothers, dry goods merchants on Washington street, attacked the credibility of William J. Dingee, president of the Contra Costa Water Company.

Mr. Kahn appeared before the Board to protest against the proposed raise in the assessment of the property and improvements on the northeast corner of Twelfth and Washington streets.

Mr. Kahn said: "The total assessment on property including improvements is \$84,300, for a lot 100 x 55 feet, there being a separate assessment for a lot fronting on Twelfth street. In consideration of the amount of taxes we pay for all purposes it is all that it should be assessed for. In 1890 this property was assessed for \$27,700, and the assessment remained at that figure until we bought it in 1893."

"Were there any improvements on it when you bought it?" inquired Wikson.

"No. But I will say that there was no great increase in the value of Washington street property till William J. Dingee gave perjured testimony to the effect that he sold the lots for \$1,000 a front foot. It was never proposed to raise the assessment before he made this false statement before the Board of Supervisors."

"Is not property on Washington street just as valuable as corresponding property fronting on Broadway," asked Wikson.

"No," replied Kahn, "there is just as much difference between Washington street and Broadway property as there is between the real value of the Contra Costa Water Company's plant and the valuation set upon it by Judge Hart. I take off my hat to William J. Dingee as a manipulator of the trickster's methods."

Wikson—I object to such talk. It has nothing to do with the matter in hand. We are not here to discuss what Dingee has done. We are here to discuss the assessment of the property on the corner of Twelfth and Washington.

Chairman Schaffer—Mr. Kahn, you were cited to appear here in reference to your property, and not as to the Contra Costa Water Company. Please confine yourself to the matter in hand.

Kahn—Mr. President, I will try to give you statements bearing on the property I am interested in. First, I wished to clear the minds of those present of the \$1,000 per foot statement of Dingee. Dingee is a bright man, but for ways that are dark and tricks that are hidden, Mr. Dingee in his role of arch manipulator rivals the smooth and ingenious methods of the heathen Chinese.

There was much laughter and excitement in the lobby. Chairman Schaffer pounded on his desk for order.

Schaffer—Mr. Kahn you must confine yourself to the matter which brought you here.

Kahn—I only wanted to disabuse the minds of those here concerning the \$1,000 per foot valuation of the Washington street property. I do not want the members of this Board to use Mr. Dingee's statement as a basis of making assessments.

Wikson—I wish to state that the fact of Washington street property selling for \$1,000 per foot ten years ago was not brought to my attention.

Kahn—I am sorry for you if you do not

Under the direction of the members of the Tirra Tirra Club, of which she was a member, the body of Miss Bertha Ne-vander was laid to rest yesterday afternoon. Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. It is skin slowly changed color, also his eyes, and he suffered terribly. Then he was advised to try Electric Lighters, the wonderful Liver and Bowel remedy, and he wrote: "After taking two bottles I was a wholly new man. A mild, pleasant taste, a new life in my stomach, liver and kidneys. I am now strong, healthy and happy. Sold by Osmond Bros. druggists, corner Seventh and Broadway."
